

# Photography Policy

**Agreement to this policy is completely optional and if you decline, this will not affect your activities within the club.**

## Taking of Photographs

We would like for your consent to take photographs during club activities. This includes underwater, above water photos, and club non-diving activities, such as social events. If you request a particular image of you not be taken or deleted/cropped, this will be honoured.

We will check any photographs being uploaded to any machine to ensure no accidental photograph of someone who has declined has been taken. If it has, it will be deleted, or you will be cropped out if possible before the photo is stored. If you are in the background and your face is not visible (e.g. your back is turned away) we will **not** consider this to be a photograph of you.

## Publishing of Photographs

We would also like your standing consent to publish photographs of you on the club website, Facebook page, or other medium for publicity purposes. If you consent, we will not request your permission for each photograph.

If you decline (and you have consented to photographs being taken) we will ask for your consent before publishing any photographs that contain you (we will not if you are not recognisable and in the background, e.g. your back is turned away).

You have the right to request any photograph of you be deleted/removed (or cropped as needed) that has been published.

If you are the owner of a photograph, we will always ask your permission before publishing your photograph. We will put a photo credit in the caption (you can request we do not do this if you wish). We will only publish photos once we have checked the photography preferences of individuals(s) in the photograph.

If we wish to name you in the caption of the image, we will always seek your consent before doing so (regardless of whether you have consented to the publishing of photographs).

# Your Rights

The club website has a Google Form link ([www.bromleydivingclub.com/membership](http://www.bromleydivingclub.com/membership)) where you can register your data protection and photography preferences.

You can request specific restrictions for photography usage through this form. Alternatively, you can contact us.

We keep a record (including name and email address) of your data protection & photography preferences.

To contact us, contact the data controller at [membership@bromleydivingclub.com](mailto:membership@bromleydivingclub.com).
